ABOUT US

In a constantly evolving industry, Refined Metal manufactures and distributes top-quality steel framing and decking products for the commercial and residential construction sectors. We proudly service and supply lumberyards, construction suppliers, and retail merchandisers nationwide.

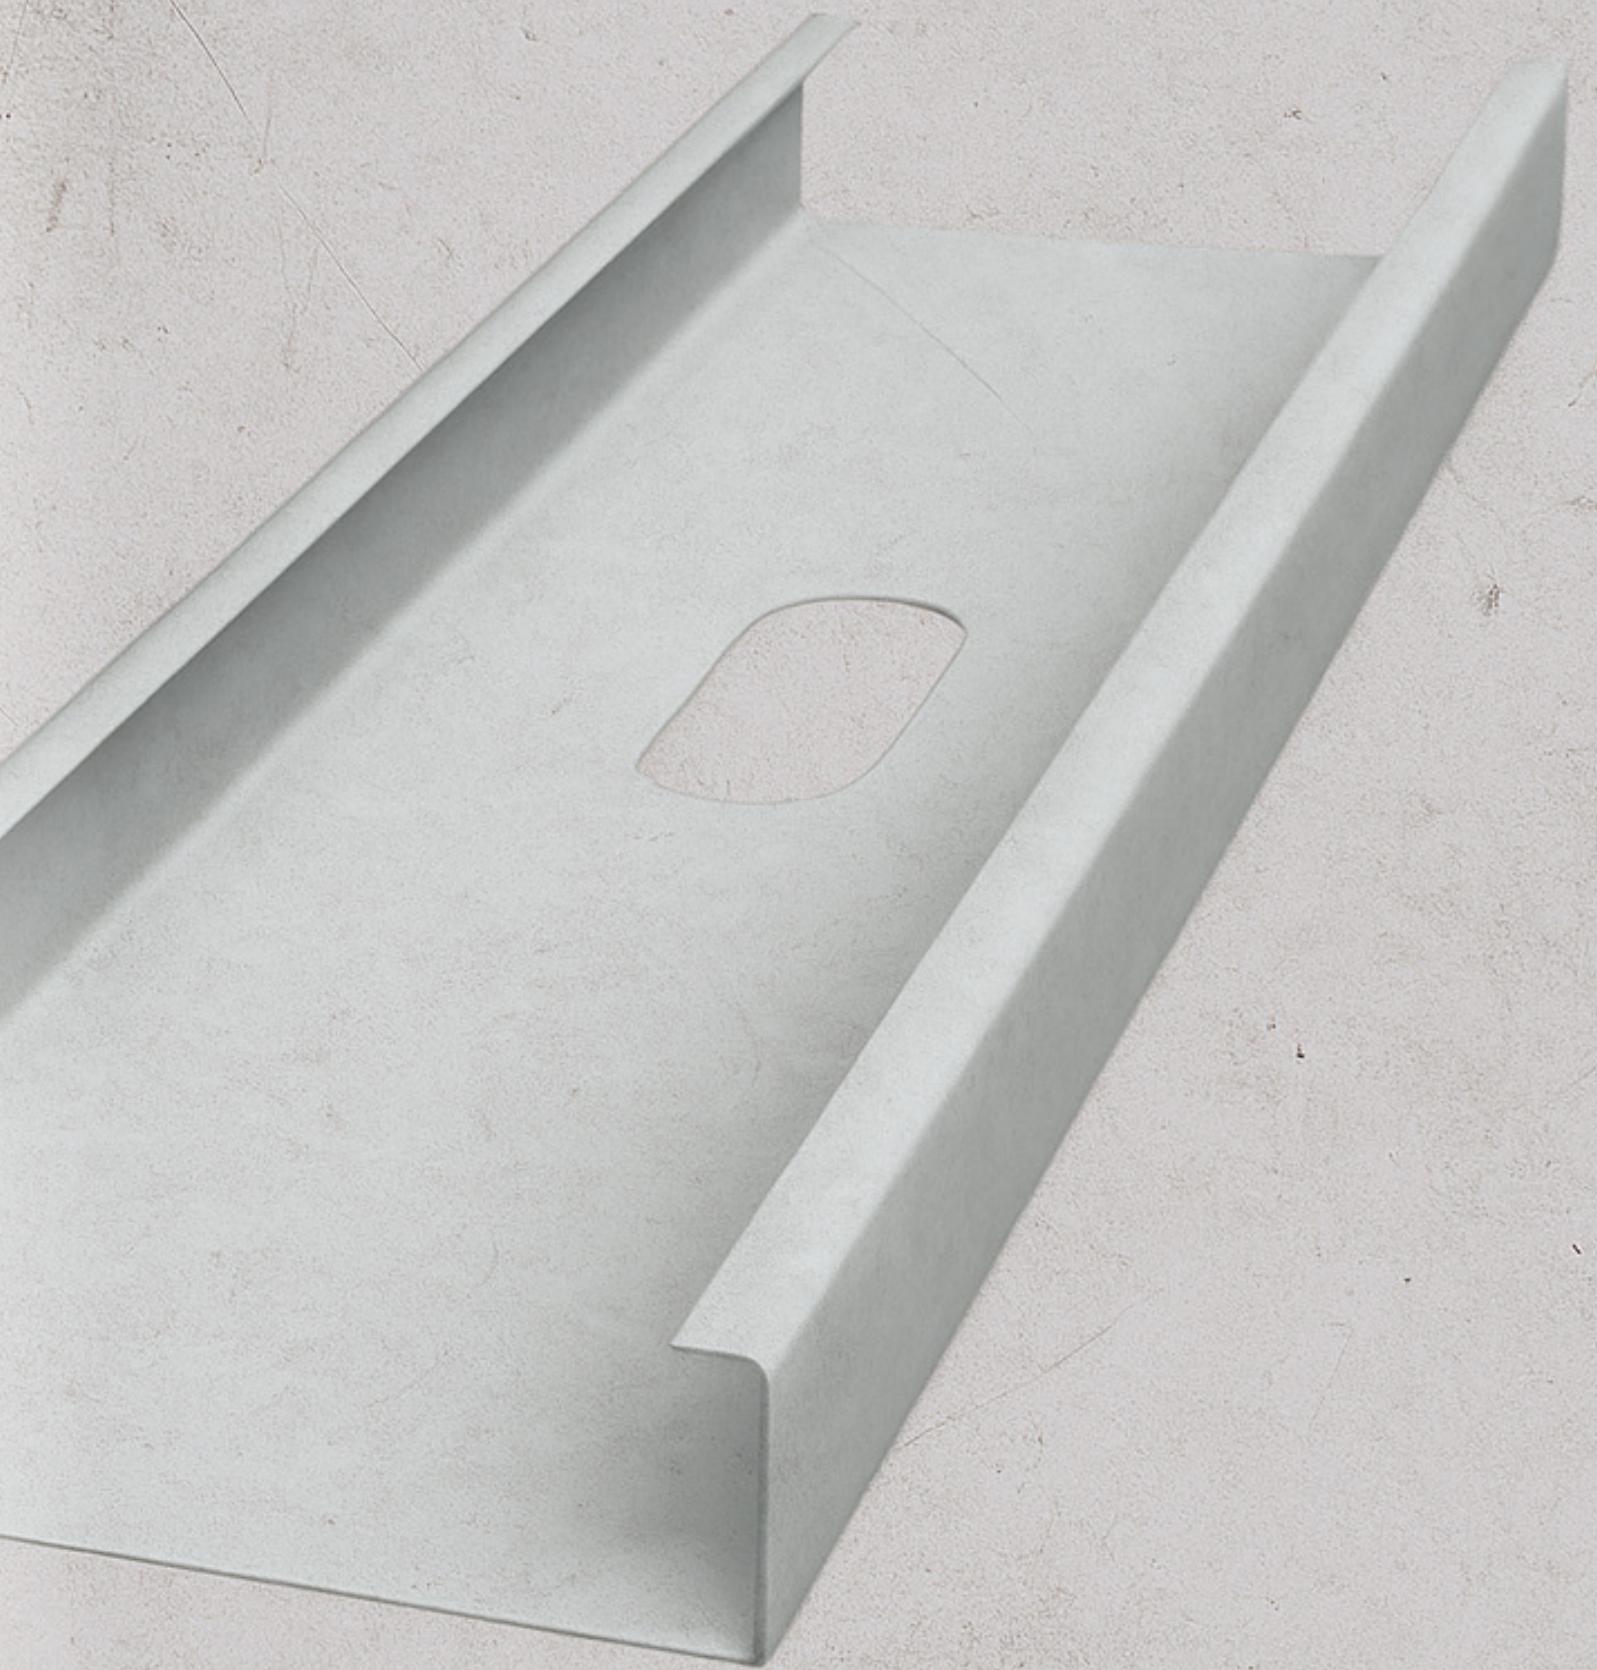

As the steel product landscape evolves and the demand for innovative solutions increases, Refined Metal rises to the challenge—developing forward-thinking products for a new generation of builders.

With years of experience in manufacturing and distributing industrial-grade building materials, we understand the specific needs of our customers and are committed to delivering superior quality, competitive pricing, and outstanding service.

Refined Metal specializes in the production of structural and drywall studs, steel joists for steel framing construction, and a full range of steel decking components across all deck types and profiles. Our high-quality, lightweight, and durable studs provide maximum structural stability for both interior walls and load-bearing frameworks.

Our steel decking systems continue to capture a growing share of the market due to their proven advantages, superior strength, and consistent performance. We uphold rigorous manufacturing and quality control standards to ensure we deliver the best steel products available.

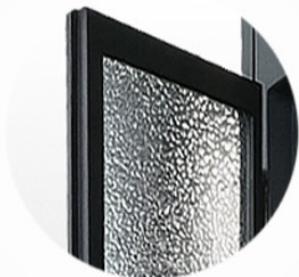

All Refined Metal products meet or exceed industry standards set by AISI, ASTM, and SDI. We leverage the highest level of available technology to maintain our position as a leader in steel product innovation and reliabili.

Zero Rust. Zero Worry.

100% Rust-Resistant Galvanized Steel with Powder Coating

Quiet & Cool.

Rubber Soundproofing Seal Prevents Noise and Insulates Against Heat

Style Meets Function.

Operable Decorative Glass Panel with Multiple Style Options

Flexible Entry.

Optional 2" Removable Threshold

Matters*

Single Doors

Gridline

D1. Clearview

A clean and modern design featuring a large glass panel for maximum visibility and light. Ideal for minimalistic and contemporary storefronts.

D2. Gridline

A structured grid design that combines symmetry and strength. Brings a bold, industrial-modern look to any entrance.

D3.Vinegate

Ornamental ironwork in vine patterns creates an elegant, classic appearance. Perfect for vintage or European-style aesthetics.

D4.Royalflow

Flowing iron curves give this door a sense of movement and sophistication. A luxurious choice for premium spaces.

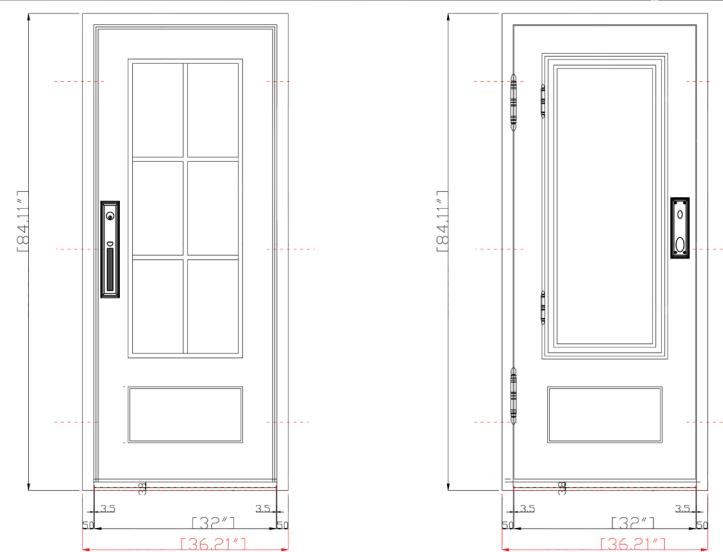

Single Doors

Custom Doors

Our custom doors combine function and style, offering full flexibility in size, color, and configuration. Each door is made from 100% rust-resistant galvanized steel and finished with a durable powder coating. Tempered, insulated glass provides enhanced safety and energy efficiency, while a removable magnetic screen allows for easy maintenance and improved ventilation. Available options include various colors, glass types, handrail styles, and configurations such as Mother-Daughter and Double Doors. We also welcome custom requests—contact us to bring your vision to life.

Railing

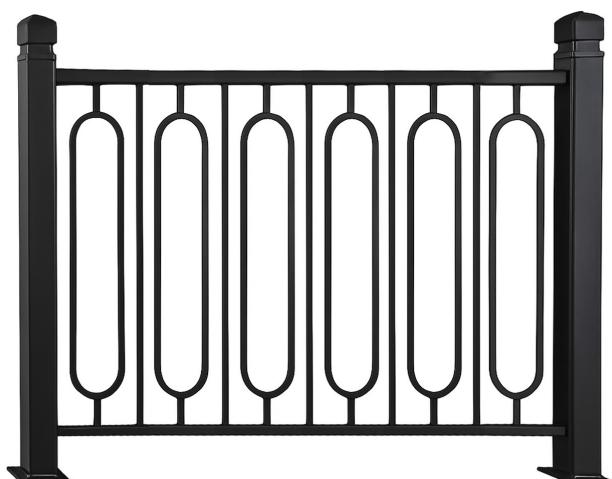

R1. Urban Classic Railing

A clean and minimalist design, the Urban Classic Railing is ideal for modern spaces seeking simplicity with strength. Crafted from durable black powder-coated steel, its vertical lines emphasize symmetry and functionality, perfect for both residential and commercial use.

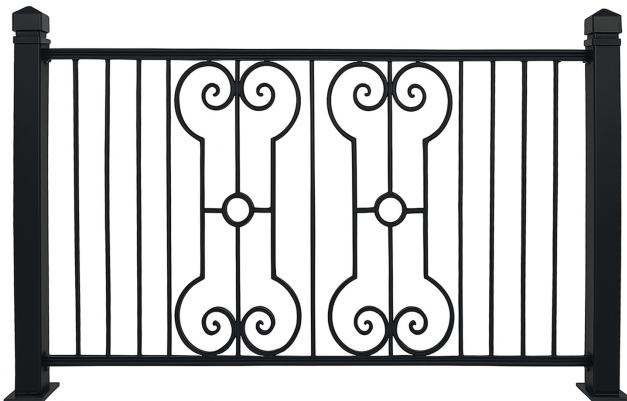

R2. Oval Harmony Railing

The Oval Harmony Railing features a refined pattern of rounded vertical loops, offering an elegant alternative to standard straight-line railings. Its symmetrical form brings a subtle architectural charm, making it a perfect match for contemporary balconies and porches.

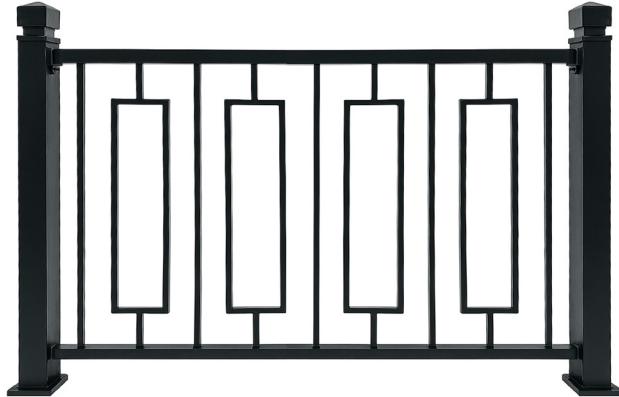

R3. Scroll Crest Railing

This timeless piece showcases mirrored scroll accents centered in a balanced composition. The Scroll Crest Railing combines ornamental detailing with structural integrity, ideal for enhancing traditional or transitional spaces with a touch of sophistication.

R4. Fleur Regency Railing

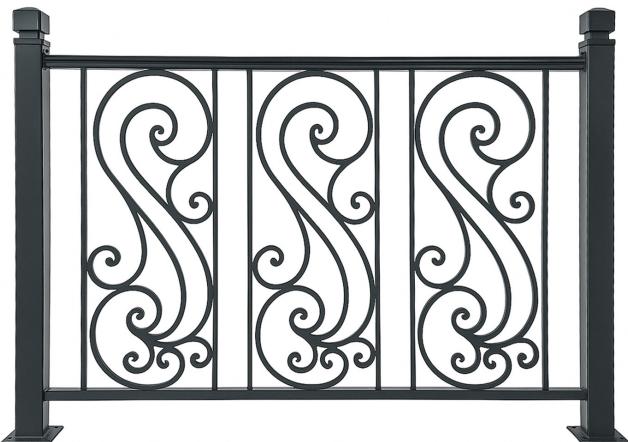

A masterpiece of wrought iron artistry, the Fleur Regency Railing features intricate vine-like curves and sculpted post finials. It is perfect for classic villa balconies, evoking elegance and refinement while ensuring security and style.

R5. S-Curve Elegance Railing

Defined by graceful S-shaped scrolls, the S-Curve Elegance Railing delivers a refined, romantic look. Perfect for upscale patios and luxury residences, it blends ornamental beauty with the durability of fully welded steel craftsmanship.

R6. Royal Heritage Railing

The Royal Heritage Railing exudes prestige with its intricate baroque-style scrolls and decorative post tops. Designed for grand entrances or luxurious exteriors, it offers a timeless charm with a high-end finish that makes a bold statement.

Custom Railing

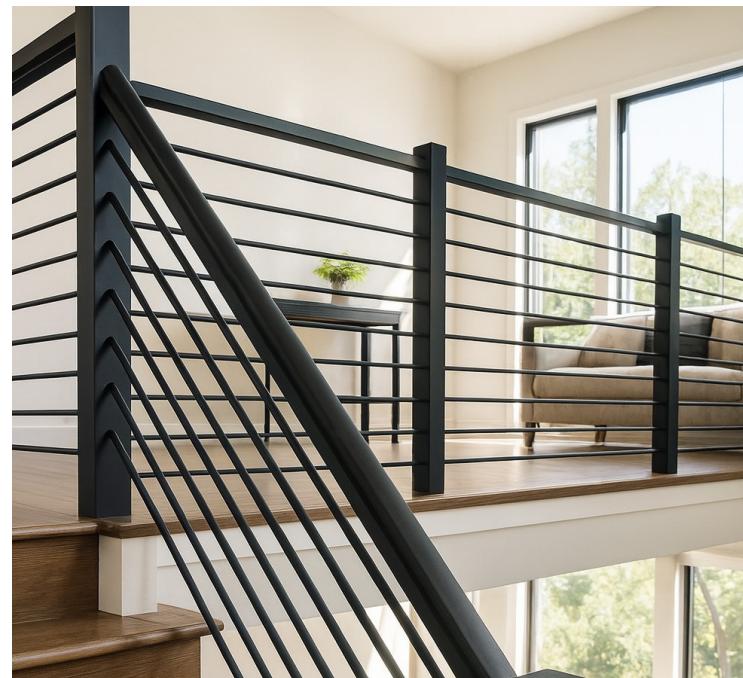

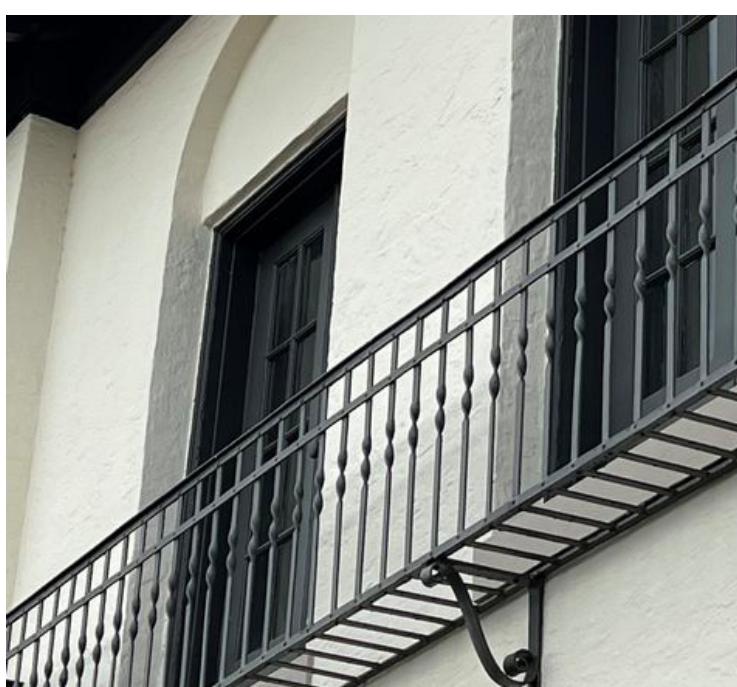

Every railing is fully customizable in both design and size, making it easy to create the perfect fit for your space. Crafted from 100% rust-resistant galvanized steel with a durable powder-coated finish, our railings are built to last. Unlike cast iron, we use solid steel for added strength and durability.
